

Creating Your Syllabus as an HTML Page in D2L

In order to utilize the HTML Accessible Syllabus in D2L, follow the steps below and simply copy/paste your course information into page. This HTML Syllabus was approved by RSCC Faculty Senate.

1 Select the module or section where you want students to be able to access your syllabus.

2 Click "New" to view a drop down menu.

3 Select "Create a File".

4 Create a "Title" for your HTML Syllabus.

5 Click "Browse for a Template" to find the RSCC Accessible Syllabus.

6 Select "Shared Files".

7 Click "Page Templates".

8 Choose from one of four styles to use for your syllabus.

Classic Contemporary

Einstein's brain

"[Albert Einstein's] association with great intelligence has made the name Einstein synonymous with genius." - T

Modern Red

Template styles

Heading 1
