## Accessing Alternative Formats

Alternative Formats are generated on your documents automatically and do not require any extra configuration or editing in D2L on your behalf.

- Once the user finds the course document, there will be an *Alternative Formats* icon to the right of the document title.

- Click on the Alternative Formats icon to display the list of available resources.

- Below is the list of available *Panorama Alternative Formats:*
    - **Source File:** View the document in its original format, suitable for download viewing.
    - **PDF:** View the document in PDF format, suitable for both online and download viewing.
    - **Text File:** View the document in a pure text format without any formatting styles, suitable for both online and download viewing.
    - **Immersive Reader:** Allows for customizations to text preferences, grammar options, and reading preferences while following along with the audio playback.

## Alternative Formats Menu
### Politics and Arts.pdf

| | |
|---|---|
| Source File | PDF |
| Text File | Immersive Reader |
| Gradient Reader | EPUB |
| Braille | Audio Podcast |
| OCR | Math Formats |
| Language Translations | |

- **Gradient Reader:** Enhances visual word recognition when reading by providing a guiding color gradient.

- **EPUB:** View the document in the ebook format, suitable for any ebook reader application.

- **Braille:** View the document in the braille format, suitable for download viewing (a braille reader is required).

- **Audio Podcast:** Audio playback for documents, suitable for both online and download listening.

- **OCR:** Convert images with text into machine-encoded text that can be searched and read by screen readers.

  - **OCR PDF:** Text within images and GIFs that are inserted into a document can be searched and read aloud by screen readers.

  - **OCR Text:** Recommended for those who'd like plain text, the OCR tool will extract and display text within images and GIFs as a TXT file.

  - **OCR Audio:** Extract text within images and GIFs into an MP3 text-to-speech audio player.
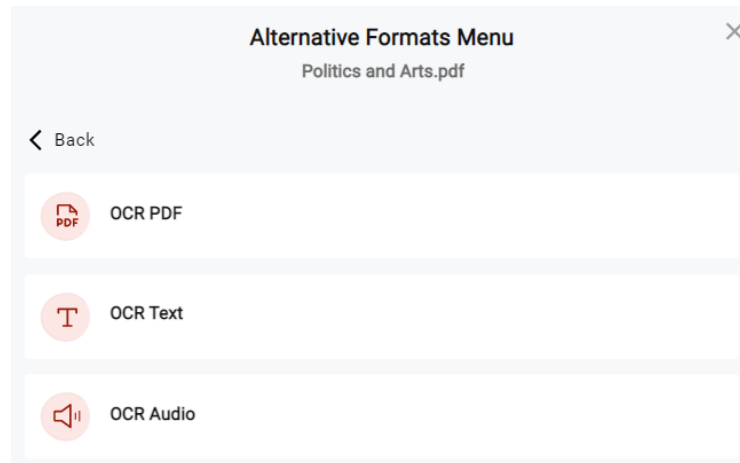

- **Math Formats:** Convert documents containing math equations into LaTeX, clear text (i.e. numbers and symbols to words), or MP3 files.

  - **Latex:** Convert documents into LaTeX document format.
  - **Math Text:** Convert documents into printed English, including numbers and symbols.
  - **Math Audio:** Convert documents to MP3.
- **Language Translation:** Translate a document automatically to over 100 languages, which can be downloaded.
