# Adding RedShelf
Add RedShelf to a Course Module

This feature enables instructors to add the RedShelf External Learning Tool to course modules for students to access etext.
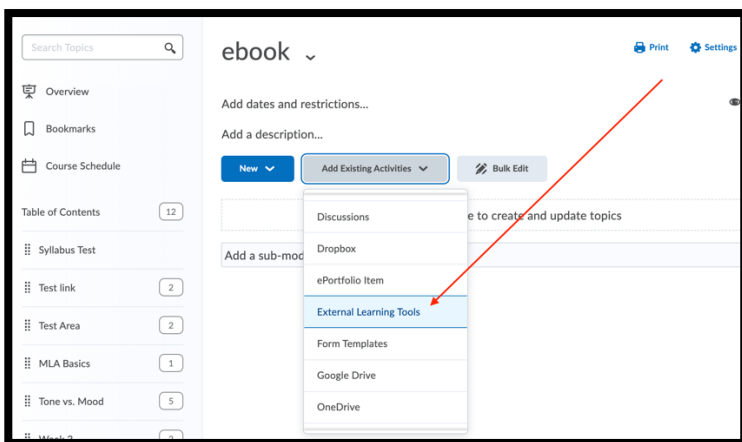

Navigate to the **Content** of your course

Within a module, select the **Add Existing Activities** button

Add Existing Activities

Choose **External Learning Tools** from the list

External Learning Tools

On the **Add Activity** page, select **MyShelf** from the list.

Choose MyShelf

This will place the link for the students to use in your course content.

RedShelf Link
